## MOBILITY/HEALTH REQUIREMENTS AND INSURANCE COVERAGE

A cruise on the *Coral Adventurer* is suitable for guests of all fitness levels, however a reasonable level of mobility is required to travel and enjoy all your cruise itinerary has to offer. All guests should be in good general health, able to walk reasonable distances over sometimes uneven terrain, and stand during excursions. Hikes and walks do vary in intensity and where possible groups will be split to suit easy and moderate walkers.

As our itineraries cover remote regions, they are not suitable for those with serious medical conditions. Any ongoing medical issues should be discussed to reservations staff at the time of booking. ***While senior crew are trained in remote area first aid, it is important to note that we do not employ doctors on board our cruises. We strongly encourage all passengers to obtain appropriate travel insurance, which covers cancellation costs and evacuation expenses.***

Onboard, the *Coral Adventurer* has passenger elevators / lifts on accommodation decks, providing easy movement throughout the ship.

## DIETARY NEEDS AND SPECIAL REQUIREMENTS

Special dietary needs can be catered for. Please advise our reservations staff of any special requirements in writing at least three weeks prior to your cruise departure. Please also advise of any special anniversaries or birthdays you may be celebrating whilst aboard.

## SAFETY ON BOARD

On a Coral Expeditions cruise, the safety of our guests is our top priority. Upon boarding, you will be briefed about our emergency procedures and given tips for how to move about the vessel in rough conditions. Throughout the cruise, safety announcements will be made via the public address system and can be heard throughout the ship. Always listen to the advice of your Captain, Purser, and Expedition Team.

It is essential that you take certain safety precautions. Here are some basic rules:

- Walk, never run, aboard the ship, and be extra careful when walking on wet or damp decks.

In rough weather, note especially:

- Do not stroll about the ship unnecessarily
- Hold on to handrails on stairways. Be very careful in the bathroom
- Doors should be latched open or kept closed during heavy seas. Use the handles and never hold a door by its frame as the ship's movement may cause the door to close on your hand.
- Secure items in your bathroom and on your bureau, or place in drawers and cupboards.
- Use care when carrying anything, always ask for assistance when needed.

## SEASICKNESS

Prevention is key - you should discuss appropriate measures with your doctor or pharmacist prior to travel. If you do become seasick whilst on board, please advise the Purser so they can attend to your needs promptly and appropriately. A variety of seasickness preventions and treatments are available for purchase on board.

## MANAGING CONTAGIOUS ILLNESS WHILST ON BOARD

If you become ill whilst on board, please alert the Purser to your symptoms. You may be requested to remain in your cabin whilst symptoms persist or asked to wear a protective mask, in order to contain the spread of any contagion. Frequent handwashing, utilising the sanitizing hand gels placed around the vessel, and using tongs provided on the meal buffets will all help to prevent the spread of sickness.
